

Kavish Sanghvi

Freelance Web Developer | Undergraduate Computer Engineering Student

Mumbai, India | +91-9769759909 | info@kavishsanghvi.co | www.kavishsanghvi.co | www.linkedin.com/in/kavishsanghvi

OBJECTIVE

Looking for a work opportunity that will utilize the knowledge I possess to create innovative technology and at the same time widen my horizon and enhance my skills set thereby leading to the growth of the organization I work with.

EDUCATION

NMIMS University's Mukesh Patel School of Technology Management & Engineering, Mumbai, India

Bachelor of Technology in Computer Engineering, July 2016 – Expected April 2020

Thakur Polytechnic, Mumbai, India

Diploma in Computer Engineering with First Class Distinction (77.19%), July 2012 - February 2016

SKILLS

Language: HTML, CSS, WordPress, Java, JavaScript, PHP, Python, C, C++, LabVIEW, jQuery, C#

Software: Jupyter Notebook, Brackets, NetBeans, Adobe Dreamweaver, Android Studio, SAS, Google Web Designer, Microsoft SQL Server Studio, WampServer, Microsoft Visual Basics

Database: MySQL, phpMyAdmin

WORK EXPERIENCE

MINO HOSTNTRIPS, Offenbach, Germany

Web Developer, January 2020 – Present (Freelance)

Mino HostnTrips is a host and travel website for travelers who want to have a homely experience during their trips to African and Caribbean region.

- Designing and developing a travel and host website for African and Caribbean regions, www.minohostntrips.com
- Implemented listing feature for host to add their homes and host tourists, as well as 2Checkout payment gateway for payment processing.
- Technologies used: WordPress, HTML, CSS, phpMyAdmin, WordPress plugins

DIRECTLY, San Francisco, United States of America

Microsoft Windows Expert, April 2019 – Present (Part-time)

Directly is a leader in support automation that helps enterprise companies launch and train virtual agents that double their automation rate.

- Connecting with Microsoft customers to understand and analyse their queries to resolve technical issues related to Microsoft Windows such as Windows Update, Blue Screen of Death, etc.
- Appreciated for receiving 100% helpfulness rating for support provided to more than 350 customers

BLUE COLLAR-JOBS, Berlin, Germany

Web Developer, February 2019 – May 2019 (Freelance)

Blue Collar-Jobs is a user-friendly job portal for semi-skilled workers to find potential workplace.

- Understood the firm's requirements and developed a job portal website for semi-skilled workers, www.bluecollar-jobs.com
- Designed and developed the website and database to ensure high performance and responsiveness as well as integrated PayPal payment gateway for processing subscription fees
- Technologies used: WordPress, HTML, CSS, phpMyAdmin, WordPress plugins

RIYA BUSINESS SOLUTIONS PVT. LTD., Mumbai, India

Software/Web Developer Intern, December 2018 – April 2019 (Internship)

Riya Business Solutions Pvt. Ltd. was a leading software and web development firm that dealt with designing, developing and maintenance of software and websites.

- Designed and developed software, analyzed and modified it in order to optimize performance of the website as well as implemented features such as quick search and payment gateway.
- Created websites and analyzed them for updates as well as established back up from websites to local directories to recover data
- Examined codes to analyze if they met industry standards and to ensure its validity, structure and compatibility with all kinds of browsers and devices
- Technologies used: HTML, CSS, WordPress, Java, Python

QUICK FIX CHIX, California, United States of America

Freelance Web Developer, September 2018 – October 2018 (Freelance)

- Developed a business/professional website, www.quickfixchix.com, based on the requirements of the Founder
- Oversaw maintenance of the website in order to perform repairs and fixes, browser compatibility testing and to ensure high performance and responsiveness
- Technologies used: HTML, CSS, JavaScript

ATS INFOTECH PVT. LTD., New Delhi, India

Software Tester, February 2018 – March 2018 (Internship)

ATS Infotech Pvt. Ltd. is a diversified group, involved in various business verticals like skill development, HR services, software sales, aptitude tests and international certifications

- Performed system analysis to understand the system behaviour, functionality and performance of data retrieval and segmentation. Implemented acceptance testing to ensure that end-user requirements were met
- Scrutinized the website www.mentorrbuddy.com, to detect and report malware and bugs in the website
- Suggested solutions to optimise functionalities such as missing links, contents, incorrect redirection and user interface modification

H. K. CONCEPTS, Surat, India

Software Developer Intern, June 2017 – June 2017 (Internship)

H.K. Concepts is an Indian consumer electronics durables and IT accessories manufacturer.

- Developed a receipt generation system to maintain record of inventory, where the user can update and add products to a virtual cart with features to generate receipt on confirming the order.
- Technologies used: Java, JSP, JDBC, Servlets, MySQL

ACADEMIC PROJECTS

Fauna Image Classification using Convolutional Neural Network (In Progress)

- Designing, developing, and training an efficient convolutional neural network for classification of animal images with improved accuracy
- Aim of the project is to develop an animal image classifier in dense forest environments to aid ecologists and researchers in neural network/Artificial Intelligence & zoological domains to further study and/or improve habitat, environmental and extinction patterns.
- Technologies using: Python, Jupyter Notebook, Convolutional Neural Network, TensorFlow, Transfer Learning, Keras API, Kaggle Dataset

GPS Tracking System Using Car Charger

- Designed and developed GPS tracking system which displays latitude and longitude to provides utmost accuracy with the use of car charger as power source.
- Participated in various inter-college, regional, state and national level project competitions.
- Technology used: LabVIEW

Library Management System

- Constructed a library management system to manage major library related functionalities such as finding books, issuing books, returning books, and fine collection
- Interfaced the system on an online platform that facilitates hold request, track book, request book extension facilities which distinguishes it from other softwares
- Technologies used: PHP, CSS, phpMyAdmin

CERTIFICATIONS

- Blockchain Specialization by The State University of New York and University of Buffalo on Coursera
- Neural Networks and Deep Learning by deeplearning.ai on Coursera
- Introduction to Artificial Intelligence by Microsoft on edX
- Machine Learning by Stanford University on Coursera
- Java SE 8 Programmer (1Z0-808) by Oracle
- Database Fundamentals (98-364) by Microsoft
- Web Page Designing by Maharashtra State Board of Vocational Examinations

RESEARCH PUBLICATIONS

- Co-authored and published a review paper with title “A Survey on Image Classification Techniques” in SUSCOM-2020
- Authored and published a review paper with title “Drunk Driving Detection” in Horizon Research Publishing Corporation’s Computer Science and Information Technology journal on August 2018, Volume 6, Number 2, ISSN: 2331-6063 (Print) and ISSN: 2331-6071 (Online)
<http://www.hrpub.org/download/20180730/CSIT2-13510632.pdf>
- Co-authored and published a research paper title “GPS Tracking System using Car Charger” in Horizon Research Publishing Corporation’s Computer Science and Information Technology journal on 2017, Volume 5, Number 4 with ISSN: 2331-6063 (Print) and ISSN: 2331-6071 (Online)
<http://www.hrpub.org/download/20170930/CSIT3-13508470.pdf>

EXTRA-CURRICULAR ACTIVITIES

- Designed and developed website for Student Council’s Editorial Board and Social Conclave of Mukesh Patel School of Technology Management & Engineering
- Designed and developed personal/portfolio website www.kavishsanghvi.co to showcase the projects I have worked on
- Part-took in various workshops on ‘Chatbots’, ‘Game Development’ and ‘Android in 60 minutes’ organized by various associations and institutions during the year 2017
- Presented a paper with title “Cloud Computing” at TechTalk 15 organized by Vidya Prasarak Mandal's Polytechnic, Mumbai
- Participated in WordPress and Joomla workshop organized by Industry Oriented Workshop (IOW) by Thakur College of Engineering & Technology, Mumbai in the year 2014
- Volunteered at The United Nations World Environmental Day, May 2018, wherein I participated in awareness campaigns centered on environment protection and beat plastic pollution
- Working as iOS public beta tester for many softwares and games such as iOS (version 11,12,13), Converge by Collegepond, Hike Messenger, Shape Fix, Dino Rush Race, etc.
